SAFETY STATEMENT

We all want to have a successful and enjoyable day, but most importantly a safe and accident-free one. To ensure this, the co-operation of exhibitors, spectators and organisers is vital. Please note a few guidelines in relation to safety:

- Observe signs and Steward's instructions, especially those relating to caution in livestock areas etc.
- Do not exhibit animals that are hard to control or ones which act in a dangerous manner.
- All animals must be led by a competent adult.
- Animals must not be tied to trailers.
- Dogs must be on a lead at all times and under the control of the handler.
- Caution and care should be exercised at all times.

SPECIFIC REQUIREMENTS - HORSES AND OTHER EQUINES

- Premises Registration
- As from 1 May 2012, any premises (which includes shows, fairs and markets) where horses or other equines are gathered must be registered with the Department. Owners/persons in charge of such gatherings are required to submit a completed application form for registration and to keep records of movements on/off their premises.
- Records must be retained for at least 3 years as they may be required by the Department for the purposes of tracing disease. Records required are
 - The name and address of the owner/person in charge of the premises from which the equine came;
 - The premises registration number from which the equine came and
 - Passport number/UELN number of the animal
- It is important therefore that Show organisers should contact their local Regional Veterinary Office in advance so that consideration can be given to compliance with the requirements outlined above.
- Further information is available at. www.gov.ie - Application for registration of an Equine
- Premises under the Control on Places where Horses are Kept Regulations 2014.
- Equine Identification
- All Equines (which include horses, ponies and donkeys) must be identified in accordance with EU and national legislation.
- It is an offence to be in possession of an equine that is not properly identified.
- Equine passports must be issued by approved Passport Issuing Organisations (PIOs) not later than 12 months from the date of birth of the animal and, in any event before the equine leaves the establishment of birth for a period exceeding 30 days, except in limited circumstances. The passport is valid for the lifetime of the animal. A list of the PIOs approved by the Minister for Agriculture, Food and the Marine is set out in Appendix 4.
- Microchip - all equines issued with a passport after 1st July 2009 must have a corresponding microchip implanted by a veterinarian, the details of which are recorded in the passport and in the central equine database, thereby creating a link between the passport and the animal
- In respect of each equine in his/her care, a keeper must ensure that
 - the equine is registered with an approved PIO;
 - the animal's passport is issued in accordance with EU and national legislation;
 - he/she is in compliance with the provisions of the legislation whereby the passport issued in respect of the equine must accompany the animal whenever it is moved to events such as shows, sales and to slaughter plants, etc.
- Further information is available from Dept. of Agriculture, Food and the Marine, - at Livestock Breeding, Production and Trade Division, Farnham St, Cavan (Phone +353 49 4368200) in respect of studbook equines and from Animal Identification and Movement Division, Backweston Administration Building, Stacumny Lane, Celbridge, Co Kildare, W23 X3PH (Phone +353 1 5058881) in respect of equines that do not qualify for entry into a stud

CATTLE SECTION - MICHAEL RODDY 087 4112693

Head of Section: Michael Roddy 087 411 2693

All animals **MUST** be Halter Trained

SPECIFIC REQUIREMENTS - CATTLE

Animal Health Status

T.B. - Bovine Tuberculosis Eradication Scheme

All animals must come from herds, which are Officially TB free (OTF) (i.e. not restricted) and the herd and relevant animals must have had a clear test within the previous twelve months - this test must be recorded on the Department's Animal Health Computer System (AHCS).

In general, apart from cows, and males over the age of 36 months (see next paragraph) no pre-movement test is required for T.B. However, it is recommended by the Department that a 30-day pre-movement test for TB should apply to all Shows. Animals which have disclosed inconclusive reactor results are not permitted to be moved for the purpose of exhibition at shows.

New Animal Health Law Requirements

From the 1st of September 2022 cows, and males over the age of 36 months that move from a show to a different herd must either have been tested in the previous 30 days or the animal and the herd presenting it to the show must have been tested in the previous 6 months prior to movement. If a cow, or a male over the age of 36 months, moves

from a show to a different herd and does not meet the above criteria then a TB test must be carried out on the animal concerned within 30 days of its movement into the new herd. If after 30 days, the animal has not been tested, the herd into which it has moved will be restricted and if, after a further 30 days the animal has still not been tested then the entire herd will be listed for a TB test.

Bovine Viral Diarrhoea (BVD)

All bovine animals which were born since 01/01/2013 must have a negative BVD status for

BVD virus (not antibody) when moving, including to shows, within the state. With regard to animals entering the state from abroad including Northern Ireland, it is recommended that these are tested for BVD and evidence of this provided to the show organiser. Some animals from NI may have been tested in the voluntary phase of the programme there. It is possible for a declaration of such negative results to be generated from the NI database and provided to the show organiser.

Bovine Identification & Mandatory Electronic Identification of bovines (EID)

Mandatory electronic identification of bovines (EID) is being implemented with effect from 1st July 2022. This means that all bovine animals born on or after 1st July 2022 must be identified with 2 official flag tags one of which contains an EID component. All bovines born prior to 1st July 2022 must continue to bear 2 official flag tags as heretofore. There is no mandatory requirement that bovines in this age category bear an official EID tag.

Passports

All bovines attending shows must be accompanied by their passports.

AIM Notification

The movement of cattle to and from an Agricultural Show /Fairs within the State must be recorded on the Animal Identification and Movement System (AIM).

With effect from 4 February 2019 there is a specific Certificate of Compliance for the

"Movement of Bovine from a Single Holding to a Show".

The herd keeper must obtain the Certificate of Compliance prior to the movement of animals. The certificate can be created by (i) applying on-line using their agfood account or (ii) where the keeper is not on line the certificate can be generated by the local RVO following receipt of a completed NBAS 31 K.

The creation of a the certificate is subject to normal criteria such as clear TB test etc.

A copy of form NBAS 31 K is included at Appendix 1 and will also be available on www.gov.ie.

When applying for this certificate the destination herd / or Show number is not required.

The certificate generated will include an "S" symbol.

The Certificate of Compliance for a Show will continue to be valid for a period of up to 30 days. As is currently the case these can be used for the movement of animals to a number of shows during the validity period of the certificate.

Calves which are less than 10 days cannot be moved to a Show.

The Movement Notification Section of the Certificate should be completed by the Keeper and the Show Secretary who must clearly indicate the Show Number. The Show movement should be recorded on the passport. Ultimate responsibility for fulfilling these requirements lies with the Show Secretary.

If the animal/s move from the show to a herd other than the source herd, the new destination herd must also sign the certificate.

Completed forms must be sent by the Show Secretary to the local RVO within 7 days of the Show. Failure to have movements recorded within the required time scale may have implications for the herdkeeper/s involved.

Cattle being Imported from Northern Ireland for an Agricultural Show

Imports from Northern Ireland

It is very important that any proposal to import cattle to a show, including from Northern Ireland, is made known to the local Regional Veterinary Office well in advance so that consideration can be given to compliance with the requirements outlined below.

Premises

The Show premises at which the cattle will reside for the duration of their stay must either be an assembly centre approved for exports or of such a standard as being capable of being approved for such a purpose temporarily. A fundamental requirement for such premises is that they have surfaces that are capable of being cleaned and disinfected, and have adequate cleaning and disinfection facilities. Adequate segregation facilities may be required also (see under "Status of Animals" below).

Status of Bovine Animals imported from Northern Ireland for a Show

Cattle from Northern Ireland being moved to a show must be certified in accordance with the normal animal health requirements for intra-community trade in breeding animals including having passed a TB test (export interpretation) during the 30 days prior to export.

To comply with eligibility requirements for re-importation into Northern Ireland after the show

Cattle cannot mix with an cattle of a lesser health status while at the show.

This can be achieved in one of two ways:

either the imported animals are kept segregated fully from other cattle at the show which have not been tested, or all cattle attending the show must have been TB tested (export interpretation) within 30 days.

Documentation Required

Cattle imported to a show from Northern Ireland must be accompanied by an original breeding animal intra-trade health certificate (known as a TRACES certificate) and a passport for each animal.

A TRACES message, corresponding with the TRACES certificate, will be sent for each animal or consignment being dispatched to the show (this will be performed by officials in the dispatching country).

off the return journey, this original certificate must be endorsed by the signature of the Official veterinarian of the Department at the show, together with the official stamp of the

competent authority and date of endorsement.

A TRACES message will be sent for the return journey also (this will be performed by Department officials attending the show).

In addition, a non-comminglement certificate must be issued by the official veterinarian for the show at or before return, stating that the animal shows no clinical signs of disease and has not been in contact, during its stay at the show/event, with animals of a lesser health status. The passport must accompany the animal on the return journey

also.

CMMS 5 - In such cases and in addition to the above the Keeper/Owner of the animals in conjunction with the Show Secretary must also ensure that a CMMS 5 document is completed and returned to the Animal Identification and Movement Division, Backweston Administration Building, Stacumny Lane, Celbridge, Co Kildare, W23 X3PH detailing those animals imported to take part in the Show. The keeper of the imported animals) is required to sign the form when the animal arrives at the Show and provide his/her herd number.

Following the Show, the official veterinarian should complete the bottom portion of the CMMS 5 form also confirming that he has stamped the official Health Certificate and that he has issued a Non-Comminglement Certificate.

A copy of the CMMS 5 form is attached at Appendix 2 and will also be available on the Departments website/from the local RVO.

The Secretary/Keeper should retain a photocopy of the form if required.

Requirement in respect of Cattle being:

Exported to Northern Ireland for an Agricultural Show (and returned

and

Consideration regarding export of cattle to an agricultural show within the EU other than

Northern Ireland

Export to Northern Ireland

Cattle moving from Ireland to a Show in Northern Ireland must be recorded on the Departments Animal Identification and Movement database (AIM).

When the intra-community-trade Certificate is being issued by the local RVO, they will arrange to have the export movement for the animal(s) recorded onto AIM. All cattle must be accompanied by an official TRACES intra-community-trade certificate for bovine animals.

A TRACES message, corresponding with the TRACES certificate, will be sent for each animal officials in the RVO).

or consignment being dispatched to the show (this will be performed by Department

Cattle for Breeding and Production

Valid identity card/passport - all animals

Negative TB test (export interpretation) - all animals aged over 42 days within 30 days prior to export

Negative BVD test - animals born on or after January 1st 2013

Note - Normal export rules including the 30 day residency rule will apply.

Export of cattle to an agricultural show within the EU other than to Northern Ireland

Agreement for the movement and immediate return of cattle to a Show in another country or vice versa currently applies for movements between Ireland and Northern Ireland only.

Requests for cattle from Ireland to attend shows in countries other than Northern Ireland will be dealt with on a case-by-case basis.

the movement of cattle from Ireland to a Show in parts of the EU other than to Northern Ireland takes place, it is

imperative to establish that the Competent Authority of the destination country has agreed to put in place the same system for the processing of the documentation as applies to exports to Northern Ireland. Therefore exhibitors who wish to show cattle at an EU Show other than in Northern Ireland should contact the local RVO at least one month prior to the Show.

the export of cattle from Ireland is agreed with the destination country, the movement of such cattle must be recorded on AIM. When the official intra-community trade Certificate for bovine animals is being issued by the local RVO, they will arrange to have the export movement of the animal(s) recorded onto AIM.

Process to be followed to ensure that a record is generated to record the return of cattle from a Show to the Home Farm from:

Northern Ireland and/or

A location within the EU other than to Northern Ireland where applicable/approved in line with the above (additional to those noted below may also be requested where approved).

Documentation required

Following the show, the following must be provided:

(d)* Original Intra Trade Certificate endorsed and stamped by the official veterinarian at the Show (may need to be an actual Intra Trade Health Certificate if location other than

Northern Ireland)

(e) A Non-Comminglement certificate

) CMMS 6 form: When the animal returns to the home farm, the keeper presents these

Certificates to the RV along with a completed MMS 6 form stating that the animal has

returned from the show. The RVO can then record the import movement back to the keeper's holding on the AIM system. A copy of the MMS 6 form is attached at Appendix 3 and will also be available on the Departments website/from the local RV. The Secretary/keeper show should retain a photocopy of the form if required.

SHEEP SECTION - JOHN WEHRLY 086 8122485

Head of Section: John Wehrly 086 812 2485

All Sheep including Lambs must be TAGGED and have a dispatch docket or will not be allowed to leave trailer. **ALL SHEEP TO REMAIN ON THE FIELD UNTIL 4PM**

SPECIFIC REQUIREMENTS - SHEEP

Identification

All sheep must be identified individually with appropriate ear tags issued in accordance with the requirements of the National Sheep Identification System (NSIS).

Movement Documentation

All consignments of sheep being moved must be accompanied by a completed dispatch document. Individual details of each sheep in the consignment must be recorded on the document. Sheep from non-restricted flocks only can be moved to shows. In the case of flocks restricted following diagnosis of scrapie, sheep possessing the ARR/ARR genotype only may be exhibited[1]. The movement of these ARR/ARR genotype sheep must be accompanied by the relevant movement permit (SCR/10), which can be obtained from the Regional Veterinary Office responsible for the county in which the flock is located.

AIM Notification

The movement of sheep to and from an Agricultural Show within the State must be recorded on AIM. This is done using a copy of the owners sheep dispatch document as follows:

The owner/keeper presents the signed and completed dispatch document to the show secretary who checks it to ensure that it is completed in full.

The show secretary fills in the MART section of the dispatch document with (1) the show number, (ii) the date of the move back to the source holding (iii) stamps it with the show stamp and (iv) signs the dispatch document.

The show secretary then forwards the completed pink section of the dispatch document to the local RVO within 7 days of the show movement.

The show secretary keeps white copy for his/her records.

The source/destination keeper keeps the bottom yellow copy to enter it into their flock register.

Ultimate responsibility for fulfilling this requirement lies with the Show Secretary.

Flock Register

All movements of sheep to and from shows must be recorded in the keeper's flock register.

Exports to Northern Ireland

All sheep must be accompanied by a TRACES intra-community trade certificate for ovine animals. A TRACES message, corresponding with the TRACES certificate, will be sent for each animal or consignment being dispatched to the show (this will be performed by Department officials from the RVO). Exhibitors are advised to contact the show society in Northern Ireland well in advance of any show to determine the suitability of the show for return of animals

(e.g. premises and sheep status), and whether the authorities will have officials and veterinary staff present to supervise and process documentation for animals returning to origin.

Agreement for the movement and immediate return of sheep to a Show in another country or vice versa currently applies for movements between Ireland and Northern Ireland only - it does not apply for movements to Great Britain or further afield. Movements to shows other than Northern Ireland will be dealt with on a case-by-case basis and you should contact your local Regional Veterinary Office at least one month prior to the Show.

Attendance of sheep from scrapie monitored flocks at shows and sales in 2018

Shows between 1st May and 31st October

Sheep from Scrapie Monitored Flocks [2] will be permitted to attend Agricultural Shows taking place between 1st May and 31st October, without restriction or separation from other categories of sheep.

Shows outside of the 1st May and 31st October Period

For shows taking place before 1st May or after 31st October, sheep from Scrapie Monitored or Probationary Flocks must be separated from other sheep as set down below.

There must be complete separation of Monitored/Probationary sheep from other categories of sheep at the show. Ideally, this would mean a separate entrance and exit for each group, separate loading and unloading areas, separate penning areas for each of the two groups and separate sale rings for each of the two groups.

In locations where all of the above may not be possible, the minimum requirement would be for separation of loading and unloading areas and also of penning areas. The two penning areas should be separated by a sheep-free alleyway at least twelve feet wide. If only one show ring is available, the sheep from the scrapie-monitored flocks must be shown first.

Sales between 1st May and 31st October

Sheep from Scrapie Monitored Flocks will be permitted to attend sales taking place between 1st May and 31st October, without restriction or separation from other categories of sheep.

Sales outside of the 1st May and 31st October Period

For sales taking place before 1st May or after 31st October, sheep from Scrapie Monitored or

Probationary Flocks must be separated from other sheep as set down below.

There must be complete separation of the two categories of sheep at the sale (monitored animals including probationary monitored animals and non monitored animals). Ideally, this would mean a separate entrance and exit for each group, separate loading and unloading areas, separate penning areas for each of the three groups and separate sale rings for each of the three groups.

in locations where all of the above may not be possible, the minimum requirement would be for separation of loading and unloading areas and of penning areas also. A sheep-free alleyway should separate the two penning areas at least 12 feet wide.

If only one sale ring is available the procedures set out in the following two options must be adhered to.

The sheep from the Scrapie monitored flocks must be offered for sale first, followed by non-monitored animals or

The ring can be divided by gates into two sections to ensure that each of the two categories of animals is confined to a unique part of the sales ring.

[1] ARR (Alanine, Arginine, Arginine) homozygous for alleles 136, 154 and 171 of the sheep's prion protein.

2] These flocks are flocks either accredited (full member) or in the process of accreditation (probationary member) for exporting sheep (that might not possess ARR/ARR genotypes).
